## DETAILED ACTION

### *Claim Rejections - 35 USC § 102*

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(a) the invention was known or used by others in this country, or patented or described in a printed publication in this or a foreign country, before the invention thereof by the applicant for a patent.

Claims 9-13 are rejected under 35 U.S.C. 102(a) as being anticipated by Admitted Prior Art (hereinafter referred to as “APA”- the citations below pertain to Applicant’s specification). APA teaches the following claimed limitations as follows:

9. A memory device comprising:

a gate stack pair with a space between them defining a contact opening (APA- Fig.2A and Fig.1 (9) and page 3 [0007];

a vertical oxide spacer adjacent to each gate stack of the gate stack pair (APA- Fig.2B(11) and page 3 [0007]); and

a respective continuous nitride layer overlaying each said vertical oxide spacer and each said gate stack (APA- Fig. 2C (12) and page 3 [0007]), neither of the continuous nitride layers extending to cover the contact opening between the gate stack pair (APA- Fig. 2D (12)).

10. The memory device of claim 9, wherein said gate stack comprises a floating gate and a control gate (APA- Fig.1 (4 and 6) and page 2 [0006]).

11. The memory device of claim 9, wherein said vertical oxide spacer is between about 50 Å and about 300Å in thickness (APA- page 3 [0007]).

12. The memory device of claim 11, wherein said vertical oxide spacer is about 100Å and about 200Å in thickness (APA- page 3 [0007]).

13. The memory device of claim 9, wherein said nitride layer has a thickness equal to about one half the width of said vertical oxide spacer (APA – compare Fig.2C (11 and 12)).

### ***Response to Arguments***

Applicant's arguments filed 7/25/03 have been fully considered but they are not persuasive. Applicant argues that his admitted prior art does not anticipate the amended claim language; however as shown above, the APA still anticipates Applicant's amendment.

### ***Conclusion***

**THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period

Art Unit: 2813

will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
